

Surf, work, or play without running wires

PRODUCT DATA

All-in-one Internet-sharing Router, 4-port Switch, and Wireless-G (802.11g) Access Point

Shares a single Internet connection and other resources with Ethernet wired and Wireless-G and -B devices

Push button setup feature makes wireless configuration secure and simple

High security: Wi-Fi Protected Access™ 2 (WPA2), wireless MAC address filtering, powerful SPI firewall

Wireless-G Broadband Router

Model: **WRT54G2**

PRODUCT DATA

Features

- Complies with 802.11g and 802.11b (2.4GHz) Standards
- Unsurpassed Wireless Security with Wi-Fi Protected Access™ 2 (WPA2)
- Enhanced Internet Security Management Functions including Internet Access Policies with Time Schedules
- All LAN Ports Support Auto-Crossover (MDI/MDI-X) - No Need for Crossover Cables

Wireless-G Broadband Router

The Linksys Wireless-G Broadband Router is really three devices in one box. First, there's the Wireless Access Point, which lets you connect both screaming fast Wireless-G (802.11g at 54Mbps) and Wireless-B (802.11b at 11Mbps) devices to the network. There's also a built-in 4-port full-duplex 10/100 Switch to connect your wired-Ethernet devices together. Connect four PCs directly, or attach more hubs and switches to create as big a network as you need. Finally, the Router function ties it all together and lets your whole network share a high-speed cable or DSL Internet connection.

Once your computers are connected to the Router and the Internet, they can communicate with each other too, sharing resources and files. All your computers can print on a shared printer connected anywhere in the house. And your computers can share all kinds of files -- music, digital pictures, and documents. Keep all your digital music on one computer, and listen to it anywhere in the house. Organize all of your family's digital pictures in one place, to simplify finding the ones you want, and easing backup to CD-R. Utilize extra free space on one computer when another's hard drive starts to fill up.

The new Wi-Fi Protected Setup feature makes it easy to configure your wireless devices. Just push the button on the router and on your other Wi-Fi Protected Setup-enabled wireless device to automatically create a WPA2 connection that protects your data and privacy with up to 256-bit industrial-strength encryption. The Router can serve as a DHCP Server, has a powerful SPI firewall to protect your PCs against intruders and most known Internet attacks, supports VPN pass-through, and can be configured to filter internal users' access to the Internet. Advanced configuration is a snap with the web browser-based interface.

With the Linksys Wireless-G Broadband Router at the center of your home or office network, you can share a high-speed Internet connection, files, printers, and multi-player games with flexibility, speed, security and simplicity!

Wireless-G Broadband Router

Specifications

Model	WRT54G2
Standards	IEEE 802.3, IEEE 802.3u, IEEE 802.11g, IEEE 802.11b
Ports	Internet: One 10/100 RJ-45 Port LAN: Four 10/100 RJ-45 Switched Ports One Power Port
Buttons	One Reset Button One SecureEasySetup Button
LEDs	Power, WLAN, LAN (1-4), Internet, Wifi Protected Setup (WPS)
Cabling Type	CAT5
# of Antennas	2 Internal Antennas
Detachable (y/n)	no
RF Pwr (EIRP) in dBm	18 dBm
UPnP able/cert	yes
Security features	Stateful Packet Inspection (SPI) Firewall, Internet Policy
Security key bits	Wi-Fi Protected Access™ 2 (WPA2), WEP, Wireless MAC Filtering

Environmental

Dimensions	7.99" x 1.38" x 6.3" (203mm x 35mm x 160mm)
Weight	9.88 oz (280 g)
Power	External, 12V DC, 0.5A
Certification	FCC, UL, CE, Wi-Fi (802.11b, 802.11g), WPA2, WMM
Operating Temp.	0° C to 40° C (32° F to 104° F)
Storage Temp.	-20° C to 60° C (-4° F to 140° F)
Operating Humidity	10% to 85% Non-Condensing
Storage Humidity	5% to 90% Non-Condensing

Package Contents

- Wireless-G Broadband Router
- Setup CD-ROM
- User Guide on CD-ROM
- Power Adapter
- Network Cable

Minimum Requirements

- Internet Explorer 6.0 or Firefox 1.0 or higher for web-based configuration
- CD-ROM Drive
- Windows XP or Vista
- Network adapter or wireless network adapter

The maximum performance for wireless is derived from IEEE Standard 802.11 specifications. Actual performance can vary, including lower wireless network capacity, data throughput rate, range and coverage. Performance depends on many factors, conditions and variables, including distance from the access point, volume of network traffic, building materials and construction, operating system used, mix of wireless products used, interference and other adverse conditions.

Check the product package and contents for specific features supported. Specifications are subject to change without notice.
